

Native Swine Haptoglobin

Cat. No. HP-193S **Lot. No.** (See product label)

SPECIFICATION

Product Overview	Purified Native Porcine Serum Haptoglobin.
Species	Pig
Source	Porcine Serum
Description	Haptoglobin (frequently abbreviated as Hp) is a protein in the blood plasma that binds free hemoglobin released from erythrocytes with high affinity and thereby inhibits its oxidative activity. The haptoglobin-hemoglobin complex will then be removed by the reticuloendothelial system (mostly the spleen). Haptoglobin is a serum protein that consists of two alpha and two beta chains connected by disulfide bridges. It acts as a hemoglobin scavenger and has been associated with protease inhibitory activity. It is a positive acute phase reactant, the levels of which increase significantly in pig in response to inflammation, tissue injury or disease.
