

Recombinant Mouse SELP Protein, His\Avi-tagged

Cat. No. SELP-177M **Lot. No.** (See product label)

SPECIFICATION

Product Overview	Biotinylated Recombinant Mouse P-selectin is produced by our Mammalian expression system and the target gene encoding Trp42-Ala709 is expressed with a Avi, 6His tag at the C-terminus.
Species	Mouse
Source	Human Cells
Description	P-selectin/CD62P is a single-pass type I membrane protein which is a member of the Selectin family. It consists 768 amino acid (aa). P-selectin is a cell surface glycoprotein expressed by activated platelets and endothelial cells. It induced expression in lung, liver, kidney and heart after endotoxin treatment. Ca²⁺-dependent receptor for myeloid cells that binds to carbohydrates on neutrophils and monocytes. It mediates the interaction of activated endothelial cells or platelets with leukocytes. The ligand recognized is sialyl-Lewis X. it also mediates rapid rolling of leukocyte rolling over vascular surfaces during the initial steps in inflammation through interaction with PSGL1. P-selectin interacts with SNX17, PSGL1/SEPL, PODXL2, mediates neutrophil adhesion and leukocyte rolling. This interaction requires the sialyl-Lewis X epitope of PSGL1 and PODXL2, and specific tyrosine sulfation on PSGL1.
Form	Lyophilized from a 0.2 µm filtered solution of PBS, pH7.4.
AA Sequence	Trp42-Ala709

GENE INFORMATION

Gene Name	Selp selectin, platelet [<i>Mus musculus</i> (house mouse)]
------------------	---

Official Symbol	SELP
------------------------	----------------------

Synonyms	P-selectin; CD62 antigen-like family member P; Granule membrane protein 140; GMP-140; Leukocyte-endothelial cell adhesion molecule 3; LECAM3; PADGEM; Grmp; CD62P
-----------------	---

Gene ID	20344
----------------	-----------------------

mRNA Refseq	NM_011347.2
--------------------	-----------------------------

Protein Refseq	NP_035477.1
-----------------------	-----------------------------

UniProt ID	Q01102
-------------------	------------------------
