

# Recombinant Full Length *Saccharomyces Cerevisiae* Er Membrane Protein Complex Subunit 4(Emc4) Protein, His-Tagged

**Cat. No.** RFL20258SF    **Lot. No.** (See product label)

## SPECIFICATION

|                         |                                                                                                                                                                                                               |
|-------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Full Length <i>Saccharomyces cerevisiae</i> ER membrane protein complex subunit 4(EMC4) Protein (P53073) (1-190aa), fused to N-terminal His tag, was expressed in <i>E. coli</i> .                |
| <b>Species</b>          | <i>S.cerevisiae</i>                                                                                                                                                                                           |
| <b>Source</b>           | <i>E.coli</i>                                                                                                                                                                                                 |
| <b>ProteinLength</b>    | Full Length (1-190)                                                                                                                                                                                           |
| <b>Form</b>             | Lyophilized powder                                                                                                                                                                                            |
| <b>AA Sequence</b>      | MSEQEPYEWAKHLLDTKYIEKYNIQNSNTLPSPPGFEGNSSKGNVTRKQQDATSQT<br>TSLA QKNQITVLQVQKAWQIALQPAKSIPMNIFMSYMSGTSLQIIPIMTALMLLSGPIK<br>AIFST RSAFKPVLGNKATQSQVQTAMFMYIVFQGVLMYIGYRKLNSMGLIPNAKGD<br>WLPWERIAH YNNGLQWFSD |
| <b>Purity</b>           | Greater than 90% as determined by SDS-PAGE.                                                                                                                                                                   |
| <b>Notes</b>            | Repeated freezing and thawing is not recommended. Store working aliquots at 4°C for up to one week.                                                                                                           |
| <b>Storage</b>          | Store at -20°C/-80°C upon receipt, aliquoting is necessary for mutiple use. Avoid                                                                                                                             |

repeated freeze-thaw cycles.

**Storage Buffer**

Tris/PBS-based buffer, 6% Trehalose, pH 8.0

**Reconstitution**

We recommend that this vial be briefly centrifuged prior to opening to bring the contents to the bottom. Please reconstitute protein in deionized sterile water to a concentration of 0.1-1.0 mg/mL. We recommend to add 5-50% of glycerol (final concentration) and aliquot for long-term storage at -20°C/-80°C. Our default final concentration of glycerol is 50%. Customers could use it as reference.

**GENE INFORMATION****Gene Name**

EMC4

**Synonyms**

EMC4; YGL231C; ER membrane protein complex subunit 4

**UniProt ID**

[P53073](#)
