

## Recombinant Human METTL4, His-tagged

Cat. No. METTL4-837H    Lot. No. (See product label)

### SPECIFICATION

|                  |                                                                                                                                                                      |
|------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Product Overview | Recombinant Human METTL4 protein, fused to His-tag, was expressed in E.coli and purified by Ni-sepharose.                                                            |
| Species          | Human                                                                                                                                                                |
| Source           | E.coli                                                                                                                                                               |
| ProteinLength    | 125-472aa                                                                                                                                                            |
| Storage          | The protein is stored in PBS buffer at -20°C. Avoid repeated freezing and thawing cycles.                                                                            |
| Storage Buffer   | 1M PBS (58mM Na <sub>2</sub> HPO <sub>4</sub> , 17mM NaH <sub>2</sub> PO <sub>4</sub> , 68mM NaCl, pH8. ) added with 300mM Imidazole and 0.7% Sarcosyl, 15%glycerol. |

### GENE INFORMATION

|                 |                                                                                                  |
|-----------------|--------------------------------------------------------------------------------------------------|
| Gene Name       | METTL4 methyltransferase like 4 [ Homo sapiens ]                                                 |
| Official Symbol | METTL4                                                                                           |
| Synonyms        | METTL4; methyltransferase like 4; methyltransferase-like protein 4; FLJ23017; HsT661; MGC117235; |
| Gene ID         | 64863                                                                                            |
