

# Recombinant Full Length Lactobacillus Reuteri Glycerol-3-Phosphate Acyltransferase(Plsy) Protein, His-Tagged

**Cat. No.** RFL21787LF    **Lot. No.** (See product label)

## SPECIFICATION

|                         |                                                                                                                                                                                                                              |
|-------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Full Length Lactobacillus reuteri Glycerol-3-phosphate acyltransferase(plsY) Protein (B2G735) (1-209aa), fused to N-terminal His tag, was expressed in E. coli.                                                  |
| <b>Species</b>          | Lactobacillus reuteri                                                                                                                                                                                                        |
| <b>Source</b>           | E.coli                                                                                                                                                                                                                       |
| <b>ProteinLength</b>    | Full Length (1-209)                                                                                                                                                                                                          |
| <b>Form</b>             | Lyophilized powder                                                                                                                                                                                                           |
| <b>AA Sequence</b>      | MFFEIIGMIIIAYLLGSIPTGLWIGKYIYHKDIRKLGSGNIGTTNTFRTLGFKAGVVVLF I<br>DILKGTLAASQPYFLGISGTVNPLLIGLFASLGHTVSIFDNFHGGKAVATSAGILLAYN<br>PLLFVVACLIFIVLCLTSMVSAASMVGISAIFIALFIHAWILAIVAGILTGVVFYRHR SNI<br>HRILSGKESMVSFGLGYLREKKQNK |
| <b>Purity</b>           | Greater than 90% as determined by SDS-PAGE.                                                                                                                                                                                  |
| <b>Notes</b>            | Repeated freezing and thawing is not recommended. Store working aliquots at 4°C for up to one week.                                                                                                                          |
| <b>Storage</b>          | Store at -20°C/-80°C upon receipt, aliquoting is necessary for mutiple use. Avoid repeated freeze-thaw cycles.                                                                                                               |

|                       |                                             |
|-----------------------|---------------------------------------------|
| <b>Storage Buffer</b> | Tris/PBS-based buffer, 6% Trehalose, pH 8.0 |
|-----------------------|---------------------------------------------|

**Reconstitution**

We recommend that this vial be briefly centrifuged prior to opening to bring the contents to the bottom. Please reconstitute protein in deionized sterile water to a concentration of 0.1-1.0 mg/mL. We recommend to add 5-50% of glycerol (final concentration) and aliquot for long-term storage at -20°C/-80°C. Our default final concentration of glycerol is 50%. Customers could use it as reference.

**GENE INFORMATION****Gene Name**

plsY

**Synonyms**

plsY; LAR\_0751; Glycerol-3-phosphate acyltransferase; Acyl-PO4 G3P acyltransferase; Acyl-phosphate--glycerol-3-phosphate acyltransferase; G3P acyltransferase; GPAT; Lysophosphatidic acid synthase; LPA synthase

**UniProt ID**[B2G735](#)
