

Native Human Tenascin

Cat. No. Tenascin-112H **Lot. No.** (See product label)

SPECIFICATION

Product Overview	Native Human Tenascin was purified from tissue culture supernatant of the overproducing cell line, U251, using precipitation, concentration and dialysis.
Species	Human
Source	U251
Description	human Tenascin, a secreted peptide found in the extracellular matrix that plays an active role in the development of the CNS and mesenchymal derived organs. It is also present in adult tumour vasculature and has functions in cell adhesion.
Form	Liquid, Phosphate buffered saline.
Molecular Mass	This protein migrates at around 280-300 kDa by SDS PAGE analysis
Purity	>97% by SDS PAGE
Storage	Store at -70°C. Storage in frost-free freezers is not recommended. This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the protein.
Concentration	Total protein concentration 0.1mg/ml
