

# Recombinant Full Length Presbytis Melalophos Nadh-Ubiquinone Oxidoreductase Chain 4L(Mt-Nd4L) Protein, His-Tagged

**Cat. No.** RFL29568PF    **Lot. No.** (See product label)

## SPECIFICATION

|                         |                                                                                                                                                                                 |
|-------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Full Length Presbytis melalophos NADH-ubiquinone oxidoreductase chain 4L(MT-ND4L) Protein (Q15GP7) (1-98aa), fused to N-terminal His tag, was expressed in E. coli. |
| <b>Species</b>          | Presbytis melalophos (Mitred leaf monkey) (Sumatran surili)                                                                                                                     |
| <b>Source</b>           | E.coli                                                                                                                                                                          |
| <b>ProteinLength</b>    | Full Length (1-98)                                                                                                                                                              |
| <b>Form</b>             | Lyophilized powder                                                                                                                                                              |
| <b>AA Sequence</b>      | MPIIYMNIMLAFTISLLGMLTYRSHLMSSLLCLEGMMLSLFIMSTLMALNMHFPLANIV<br>P IALLVFAACEAAVGLSLLISISNTYGLDHIHNLSLLQC                                                                         |
| <b>Purity</b>           | Greater than 90% as determined by SDS-PAGE.                                                                                                                                     |
| <b>Notes</b>            | Repeated freezing and thawing is not recommended. Store working aliquots at 4°C for up to one week.                                                                             |
| <b>Storage</b>          | Store at -20°C/-80°C upon receipt, aliquoting is necessary for mutiple use. Avoid repeated freeze-thaw cycles.                                                                  |

**Storage Buffer** Tris/PBS-based buffer, 6% Trehalose, pH 8.0

**Reconstitution** We recommend that this vial be briefly centrifuged prior to opening to bring the contents to the bottom. Please reconstitute protein in deionized sterile water to a concentration of 0.1-1.0 mg/mL. We recommend to add 5-50% of glycerol (final concentration) and aliquot for long-term storage at -20°C/-80°C. Our default final concentration of glycerol is 50%. Customers could use it as reference.

## GENE INFORMATION

**Gene Name** MT-ND4L

**Synonyms** MT-ND4L; MTND4L; NADH4L; ND4L; NADH-ubiquinone oxidoreductase chain 4L; NADH dehydrogenase subunit 4L

**UniProt ID** [Q15GP7](#)
