

# Recombinant Full Length Malacomys Longipes Cytochrome C Oxidase Subunit 2(Mt-Co2) Protein, His-Tagged

Cat. No. RFL4799MF Lot. No. (See product label)

## SPECIFICATION

|                         |                                                                                                                                                                                                                                               |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Full Length Malacomys longipes Cytochrome c oxidase subunit 2(MT-CO2) Protein (Q38RZ7) (1-227aa), fused to N-terminal His tag, was expressed in E. coli.                                                                          |
| <b>Species</b>          | Malacomys longipes (Big-eared swamp rat)                                                                                                                                                                                                      |
| <b>Source</b>           | E.coli                                                                                                                                                                                                                                        |
| <b>ProteinLength</b>    | Full Length (1-227)                                                                                                                                                                                                                           |
| <b>Form</b>             | Lyophilized powder                                                                                                                                                                                                                            |
| <b>AA Sequence</b>      | MAYPFQLGLQDATSPIMEELANFHDHTLMIVFLISSLVLYIISSMLTTKLTHSTMDAQ<br>E VETIWTILPAVILILIALPSLRILYMMDEINNPAITVKTMGHQWYWSYDYEDLCF<br>DS YMVPTNDLKPGDLRLLEVDNRVVLPMELPIRMLISSEDLHSHWAVPSLGLKTDAL<br>PGRLN QATVTSNRPGLFYGCSEICGSNHSFMPIVLEMVPLKHFENWSASMI |
| <b>Purity</b>           | Greater than 90% as determined by SDS-PAGE.                                                                                                                                                                                                   |
| <b>Notes</b>            | Repeated freezing and thawing is not recommended. Store working aliquots at 4°C for up to one week.                                                                                                                                           |
| <b>Storage</b>          | Store at -20°C/-80°C upon receipt, aliquoting is necessary for mutiple use. Avoid repeated freeze-thaw cycles.                                                                                                                                |

|                       |                                             |
|-----------------------|---------------------------------------------|
| <b>Storage Buffer</b> | Tris/PBS-based buffer, 6% Trehalose, pH 8.0 |
|-----------------------|---------------------------------------------|

**Reconstitution**

We recommend that this vial be briefly centrifuged prior to opening to bring the contents to the bottom. Please reconstitute protein in deionized sterile water to a concentration of 0.1-1.0 mg/mL. We recommend to add 5-50% of glycerol (final concentration) and aliquot for long-term storage at -20°C/-80°C. Our default final concentration of glycerol is 50%. Customers could use it as reference.

**GENE INFORMATION****Gene Name**

MT-CO2

**Synonyms**

MT-CO2; COII; COX2; COXII; MTCO2; Cytochrome c oxidase subunit 2; Cytochrome c oxidase polypeptide II

**UniProt ID**[Q38RZ7](#)
