

# Recombinant Full Length Human 2-Acylglycerol O-Acyltransferase 2(Mogat2) Protein, His-Tagged

**Cat. No.** RFL5567HF    **Lot. No.** (See product label)

## SPECIFICATION

|                         |                                                                                                                                                                                                                                                                                                                                                                        |
|-------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Full Length Human 2-acylglycerol O-acyltransferase 2(MOGAT2) Protein (Q3SYC2) (1-334aa), fused to N-terminal His tag, was expressed in E. coli.                                                                                                                                                                                                            |
| <b>Species</b>          | Human                                                                                                                                                                                                                                                                                                                                                                  |
| <b>Source</b>           | E.coli                                                                                                                                                                                                                                                                                                                                                                 |
| <b>ProteinLength</b>    | Full Length (1-334)                                                                                                                                                                                                                                                                                                                                                    |
| <b>Form</b>             | Lyophilized powder                                                                                                                                                                                                                                                                                                                                                     |

| <b>Purity</b>           | Greater than 90% as determined by SDS-PAGE.                                                                                                                                                                                                                                                                                                                            |
| <b>Notes</b>            | Repeated freezing and thawing is not recommended. Store working aliquots at 4°C for up to one week.                                                                                                                                                                                                                                                                    |
| <b>Storage</b>          | Store at -20°C/-80°C upon receipt, aliquoting is necessary for mutiple use. Avoid                                                                                                                                                                                                                                                                                      |

repeated freeze-thaw cycles.

**Storage Buffer**

Tris/PBS-based buffer, 6% Trehalose, pH 8.0

**Reconstitution**

We recommend that this vial be briefly centrifuged prior to opening to bring the contents to the bottom. Please reconstitute protein in deionized sterile water to a concentration of 0.1-1.0 mg/mL. We recommend to add 5-50% of glycerol (final concentration) and aliquot for long-term storage at -20°C/-80°C. Our default final concentration of glycerol is 50%. Customers could use it as reference.

## GENE INFORMATION

**Gene Name**

MOGAT2

**Synonyms**

MOGAT2; DC5; DGAT2L5; 2-acylglycerol O-acyltransferase 2; Acyl-CoA:monoacylglycerol acyltransferase 2; MGAT2; hMGAT2; Diacylglycerol O-acyltransferase candidate 5; hDC5; Diacylglycerol acyltransferase 2-like protein 5; Monoacylglycerol O-acyltransferase 2

**UniProt ID**

[Q3SYC2](#)
