

# Recombinant Full Length Dehalococcoides Ethenogenes Glycerol-3-Phosphate Acyltransferase 3(Plsy3) Protein, His-Tagged

**Cat. No.** RFL33081DF    **Lot. No.** (See product label)

## SPECIFICATION

|                         |                                                                                                                                                                                                                                          |
|-------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Full Length Dehalococcoides ethenogenes Glycerol-3-phosphate acyltransferase 3(plsY3) Protein (Q3Z6P4) (1-216aa), fused to N-terminal His tag, was expressed in E. coli.                                                     |
| <b>Species</b>          | Dehalococcoides mccartyi                                                                                                                                                                                                                 |
| <b>Source</b>           | E.coli                                                                                                                                                                                                                                   |
| <b>ProteinLength</b>    | Full Length (1-216)                                                                                                                                                                                                                      |
| <b>Form</b>             | Lyophilized powder                                                                                                                                                                                                                       |
| <b>AA Sequence</b>      | MLIAKLLLVVIVSYLLGSIPFGYLVSHRGSKIDIRSYGSGRTGATNVLRTMGRKAALLV<br>A ALDVVKGVS AVAFAGLVIGTEALTFGTNGMAILFAQVLAGLA AVAGHIWPVFLKFR<br>GGRG VATFFGGMIALCPVAAIFGGEVLIIGAGLSGFASLSITGVVGAYALLIPLTFIS<br>GFPTE YIVYAVLGSLLITIMHRDNIKRLLAGKERKLNEKSR |
| <b>Purity</b>           | Greater than 90% as determined by SDS-PAGE.                                                                                                                                                                                              |
| <b>Notes</b>            | Repeated freezing and thawing is not recommended. Store working aliquots at 4°C for up to one week.                                                                                                                                      |
| <b>Storage</b>          | Store at -20°C/-80°C upon receipt, aliquoting is necessary for mutiple use. Avoid                                                                                                                                                        |

repeated freeze-thaw cycles.

**Storage Buffer**

Tris/PBS-based buffer, 6% Trehalose, pH 8.0

**Reconstitution**

We recommend that this vial be briefly centrifuged prior to opening to bring the contents to the bottom. Please reconstitute protein in deionized sterile water to a concentration of 0.1-1.0 mg/mL. We recommend to add 5-50% of glycerol (final concentration) and aliquot for long-term storage at -20°C/-80°C. Our default final concentration of glycerol is 50%. Customers could use it as reference.

## GENE INFORMATION

**Gene Name**

plsY3

**Synonyms**

plsY3; DET1396; Glycerol-3-phosphate acyltransferase 3; Acyl-PO4 G3P acyltransferase 3; Acyl-phosphate--glycerol-3-phosphate acyltransferase 3; G3P acyltransferase 3; GPAT 3; Lysophosphatidic acid synthase 3; LPA synthase 3

**UniProt ID**

[Q3Z6P4](#)
