

## Recombinant Full Length Xanthomonas Campestris Pv. Campestris Upf0059 Membrane Protein Xc\_4166(Xc\_4166) Protein, His-Tagged

**Cat. No.** RFL7008XF    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                                                                                                                                   |
|-------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Full Length Xanthomonas campestris pv. campestris UPF0059 membrane protein XC_4166(XC_4166) Protein (Q4UP19) (1-193aa), fused to N-terminal His tag, was expressed in E. coli.                        |
| <b>Species</b>          | Xanthomonas Campestris Pv. Campestris                                                                                                                                                                             |
| <b>Source</b>           | E.coli                                                                                                                                                                                                            |
| <b>ProteinLength</b>    | Full Length (1-193)                                                                                                                                                                                               |
| <b>Form</b>             | Lyophilized powder                                                                                                                                                                                                |
| <b>AA Sequence</b>      | MSPLSIVLLGFAMSTDAFAAAIGKGAAMRRPRWRDAVRAGLVFGCIEAITPVIGWML<br>GRA ASDYLAAFDHWIAFGLLGALGAHMIVAGLRNESEVDEALRDTPKRYGLLALAAT<br>GFATSI DAMAVGVSLAFLDVHIGVVAAVVGLCTLSMVTAGVMLGRALGALIGKRAEIL<br>GGVILILI GSTILYEHL SGAA |
| <b>Purity</b>           | Greater than 90% as determined by SDS-PAGE.                                                                                                                                                                       |
| <b>Notes</b>            | Repeated freezing and thawing is not recommended. Store working aliquots at 4°C for up to one week.                                                                                                               |
| <b>Storage</b>          | Store at -20°C/-80°C upon receipt, aliquoting is necessary for mutiple use. Avoid                                                                                                                                 |

repeated freeze-thaw cycles.

**Storage Buffer**

Tris/PBS-based buffer, 6% Trehalose, pH 8.0

**Reconstitution**

We recommend that this vial be briefly centrifuged prior to opening to bring the contents to the bottom. Please reconstitute protein in deionized sterile water to a concentration of 0.1-1.0 mg/mL. We recommend to add 5-50% of glycerol (final concentration) and aliquot for long-term storage at -20°C/-80°C. Our default final concentration of glycerol is 50%. Customers could use it as reference.

**GENE INFORMATION****Gene Name**

mntP

**Synonyms**

mntP; XC\_4166; Putative manganese efflux pump MntP

**UniProt ID**
