

# Recombinant Full Length Plasmodium Falciparum Er Lumen Protein Retaining Receptor(Erd2) Protein, His-Tagged

**Cat. No.** RFL13432PF    **Lot. No.** (See product label)

## SPECIFICATION

|                         |                                                                                                                                                                                                                                          |
|-------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Full Length Plasmodium falciparum ER lumen protein retaining receptor(ERD2) Protein (Q76NM1) (1-221aa), fused to N-terminal His tag, was expressed in E. coli.                                                               |
| <b>Species</b>          | Plasmodium falciparum                                                                                                                                                                                                                    |
| <b>Source</b>           | E.coli                                                                                                                                                                                                                                   |
| <b>ProteinLength</b>    | Full Length (1-221)                                                                                                                                                                                                                      |
| <b>Form</b>             | Lyophilized powder                                                                                                                                                                                                                       |
| <b>AA Sequence</b>      | MNIFRLIGDILHLVSMYILIMKLKSKNCIGISCRMQELYLIVFLCRYIDLFFVFVSFYNT<br>VMKITFILTIAYTIYLIRLKLPISTYNRKVDNFKSEKYLIPPCLVLSLLTCKTYNLYN ILW<br>SFSIWLESVAILPQLVLLEKQREVENITSHYVITMGLYRAFYLNWIYRYFFDDKPY INV<br>VGWIGGLIQTLLYIDFFYYFALAKWYGKKLVLPFNGEV |
| <b>Purity</b>           | Greater than 90% as determined by SDS-PAGE.                                                                                                                                                                                              |
| <b>Notes</b>            | Repeated freezing and thawing is not recommended. Store working aliquots at 4°C for up to one week.                                                                                                                                      |
| <b>Storage</b>          | Store at -20°C/-80°C upon receipt, aliquoting is necessary for mutiple use. Avoid repeated freeze-thaw cycles.                                                                                                                           |

|                       |                                             |
|-----------------------|---------------------------------------------|
| <b>Storage Buffer</b> | Tris/PBS-based buffer, 6% Trehalose, pH 8.0 |
|-----------------------|---------------------------------------------|

**Reconstitution**

We recommend that this vial be briefly centrifuged prior to opening to bring the contents to the bottom. Please reconstitute protein in deionized sterile water to a concentration of 0.1-1.0 mg/mL. We recommend to add 5-50% of glycerol (final concentration) and aliquot for long-term storage at -20°C/-80°C. Our default final concentration of glycerol is 50%. Customers could use it as reference.

**GENE INFORMATION****Gene Name**

ERD2

**Synonyms**

ERD2; PF13\_0280; ER lumen protein-retaining receptor

**UniProt ID**[Q76NM1](#)
