

# Recombinant Full Length *Xenopus laevis* Tetraspanin-31-B(Tspan31-B) Protein, His-Tagged

**Cat. No.** RFL7600XF    **Lot. No.** (See product label)

## SPECIFICATION

|                         |                                                                                                                                                                                                                                   |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Full Length <i>Xenopus laevis</i> Tetraspanin-31-B(tspan31-b) Protein (Q7ZWW7) (1-212aa), fused to N-terminal His tag, was expressed in <i>E. coli</i> .                                                              |
| <b>Species</b>          | <i>Xenopus laevis</i>                                                                                                                                                                                                             |
| <b>Source</b>           | <i>E. coli</i>                                                                                                                                                                                                                    |
| <b>ProteinLength</b>    | Full Length (1-212)                                                                                                                                                                                                               |
| <b>Form</b>             | Lyophilized powder                                                                                                                                                                                                                |
| <b>AA Sequence</b>      | MVCGGFTCSKNALCALNVVYMLVGVLLIIVAAWGKGFGIVSSIHIIGGVIAIGVFLLLIA I<br>IGLIGAVSHHQVMLFIYMVVLILVFIFQFIVSCSCLAMNRSQQEYLLNTTWNRMST<br>R LNLEKTLDCCGFLNTTEGRDEFKQDVALCIQVCSDPHKCPSCGDKMLNHADEALK<br>ILGGV GLFFSFTEILGVWLAFRYRNQKDPRANPSAFL |
| <b>Purity</b>           | Greater than 90% as determined by SDS-PAGE.                                                                                                                                                                                       |
| <b>Notes</b>            | Repeated freezing and thawing is not recommended. Store working aliquots at 4°C for up to one week.                                                                                                                               |
| <b>Storage</b>          | Store at -20°C/-80°C upon receipt, aliquoting is necessary for mutiple use. Avoid repeated freeze-thaw cycles.                                                                                                                    |

|                       |                                             |
|-----------------------|---------------------------------------------|
| <b>Storage Buffer</b> | Tris/PBS-based buffer, 6% Trehalose, pH 8.0 |
|-----------------------|---------------------------------------------|

**Reconstitution**

We recommend that this vial be briefly centrifuged prior to opening to bring the contents to the bottom. Please reconstitute protein in deionized sterile water to a concentration of 0.1-1.0 mg/mL. We recommend to add 5-50% of glycerol (final concentration) and aliquot for long-term storage at -20°C/-80°C. Our default final concentration of glycerol is 50%. Customers could use it as reference.

**GENE INFORMATION****Gene Name**

tspan31-b

**Synonyms**

tspan31-b; sas-b; Tetraspanin-31-B; Tspan-31-B; Sarcoma-amplified sequence homolog B

**UniProt ID**[Q7ZWW7](#)
