

# Recombinant Human RWDD1, GST-tagged

**Cat. No.** RWDD1-2477H    **Lot. No.** (See product label)

## SPECIFICATION

|                         |                                                                                                                                                                   |
|-------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Human RWDD1 protein, fused to GST-tag, was expressed in E.coli and purified by GSH-sepharose.                                                         |
| <b>Species</b>          | Human                                                                                                                                                             |
| <b>Source</b>           | E.coli                                                                                                                                                            |
| <b>ProteinLength</b>    | 1-243aa                                                                                                                                                           |
| <b>Storage</b>          | The protein is stored in PBS buffer at -20°C. Avoid repeated freezing and thawing cycles.                                                                         |
| <b>Storage Buffer</b>   | 1M PBS (58mM Na <sub>2</sub> HPO <sub>4</sub> , 17mM NaH <sub>2</sub> PO <sub>4</sub> , 68mM NaCl, pH8. ) added with 100mM GSH and 1% Triton X-100, 15% glycerol. |

## GENE INFORMATION

|                        |                                                                                                                         |
|------------------------|-------------------------------------------------------------------------------------------------------------------------|
| <b>Gene Name</b>       | RWDD1 RWD domain containing 1 [ Homo sapiens ]                                                                          |
| <b>Official Symbol</b> | RWDD1                                                                                                                   |
| <b>Synonyms</b>        | RWDD1; RWD domain containing 1; CGI-24; PTD013; RWD domain-containing protein 1; DRG family-regulatory protein 2; DFRP2 |
| <b>Gene ID</b>         | 51389                                                                                                                   |
