

# Recombinant Full Length Upf0208 Membrane Protein Ypo2564/Y1623/Yp\_2375(Ypo2564, Y1623, Yp\_2375) Protein, His-Tagged

**Cat. No.** RFL14877YF    **Lot. No.** (See product label)

## SPECIFICATION

|                         |                                                                                                                                                                                    |
|-------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Full Length UPF0208 membrane protein YPO2564/y1623/YP_2375(YPO2564, y1623, YP_2375) Protein (Q8ZDJ8) (1-151aa), fused to N-terminal His tag, was expressed in E. coli. |
| <b>Species</b>          | Yersinia pestis                                                                                                                                                                    |
| <b>Source</b>           | E.coli                                                                                                                                                                             |
| <b>ProteinLength</b>    | Full Length (1-151)                                                                                                                                                                |
| <b>Form</b>             | Lyophilized powder                                                                                                                                                                 |
| <b>AA Sequence</b>      | MTIKPSDSVSWFQVLQRGQHYMKTWPADKRLAPVFPENRVTVVTRFGIRFMPPLAI<br>FTLT WQIALGGQLGPAIATALFACGLPLQGLWWLGKRAITPLPPTLLQWFHEVRHKL<br>FEAGQAV APIEPIPTYQSLADLLKRAFKQLDKTFLDDL                  |
| <b>Purity</b>           | Greater than 90% as determined by SDS-PAGE.                                                                                                                                        |
| <b>Notes</b>            | Repeated freezing and thawing is not recommended. Store working aliquots at 4°C for up to one week.                                                                                |
| <b>Storage</b>          | Store at -20°C/-80°C upon receipt, aliquoting is necessary for mutiple use. Avoid repeated freeze-thaw cycles.                                                                     |

|                       |                                             |
|-----------------------|---------------------------------------------|
| <b>Storage Buffer</b> | Tris/PBS-based buffer, 6% Trehalose, pH 8.0 |
|-----------------------|---------------------------------------------|

**Reconstitution**

We recommend that this vial be briefly centrifuged prior to opening to bring the contents to the bottom. Please reconstitute protein in deionized sterile water to a concentration of 0.1-1.0 mg/mL. We recommend to add 5-50% of glycerol (final concentration) and aliquot for long-term storage at -20°C/-80°C. Our default final concentration of glycerol is 50%. Customers could use it as reference.

**GENE INFORMATION**

|                  |         |
|------------------|---------|
| <b>Gene Name</b> | YPO2564 |
|------------------|---------|

|                 |                                                                         |
|-----------------|-------------------------------------------------------------------------|
| <b>Synonyms</b> | YPO2564; y1623; YP_2375; UPF0208 membrane protein YPO2564/y1623/YP_2375 |
|-----------------|-------------------------------------------------------------------------|

|                   |                        |
