

# Recombinant Full Length Schizosaccharomyces Pombe Uncharacterized Protein C589.06C(Spac589.06C) Protein, His-Tagged

**Cat. No.** RFL33689SF    **Lot. No.** (See product label)

## SPECIFICATION

|                         |                                                                                                                                                                                                                         |
|-------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Full Length Schizosaccharomyces pombe Uncharacterized protein C589.06c(SPAC589.06c) Protein (Q9HDZ8) (1-202aa), fused to N-terminal His tag, was expressed in E. coli.                                      |
| <b>Species</b>          | Schizosaccharomyces pombe                                                                                                                                                                                               |
| <b>Source</b>           | E.coli                                                                                                                                                                                                                  |
| <b>ProteinLength</b>    | Full Length (1-202)                                                                                                                                                                                                     |
| <b>Form</b>             | Lyophilized powder                                                                                                                                                                                                      |
| <b>AA Sequence</b>      | MNAQVLNLVAALGVMQYSKKLDFTDPQIVYYARAAYVISNTIIFGVYAIQARINANND<br>E TPLVYEEPAPPFSGQSNGLVTTTVKEYDSEQLQKAKRSTMMGVAIMAFMHLYM<br>GYAQPL VIQSILPLISLFTNNLVSIYIFNKAAEGSLSRPFAPPAGLFGGGNKPAAAVTG<br>TSSNSNN ASAKSDGPTITELNENETEKSS |
| <b>Purity</b>           | Greater than 90% as determined by SDS-PAGE.                                                                                                                                                                             |
| <b>Notes</b>            | Repeated freezing and thawing is not recommended. Store working aliquots at 4°C for up to one week.                                                                                                                     |
| <b>Storage</b>          | Store at -20°C/-80°C upon receipt, aliquoting is necessary for mutiple use. Avoid                                                                                                                                       |

repeated freeze-thaw cycles.

**Storage Buffer**

Tris/PBS-based buffer, 6% Trehalose, pH 8.0

**Reconstitution**

We recommend that this vial be briefly centrifuged prior to opening to bring the contents to the bottom. Please reconstitute protein in deionized sterile water to a concentration of 0.1-1.0 mg/mL. We recommend to add 5-50% of glycerol (final concentration) and aliquot for long-term storage at -20°C/-80°C. Our default final concentration of glycerol is 50%. Customers could use it as reference.

**GENE INFORMATION****Gene Name**

SPAC589.06c

**Synonyms**

SPAC589.06c; Uncharacterized protein C589.06c

**UniProt ID**
