

## Recombinant Human TNFAIP6, His-tagged

**Cat. No.** TNFAIP6-3315H    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                                                                                      |
|-------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Human TNFAIP6 protein, fused to His-tag, was expressed in E.coli and purified by Ni-sepharose.                                                           |
| <b>Species</b>          | Human                                                                                                                                                                |
| <b>Source</b>           | E.coli                                                                                                                                                               |
| <b>ProteinLength</b>    | 1-277aa                                                                                                                                                              |
| <b>Storage</b>          | The protein is stored in PBS buffer at -20°C. Avoid repeated freezing and thawing cycles.                                                                            |
| <b>Storage Buffer</b>   | 1M PBS (58mM Na <sub>2</sub> HPO <sub>4</sub> , 17mM NaH <sub>2</sub> PO <sub>4</sub> , 68mM NaCl, pH8. ) added with 300mM Imidazole and 0.7% Sarcosyl, 15%glycerol. |

### GENE INFORMATION

|                        |                                                                                                                                                                                                                                                                                                                         |
|------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Gene Name</b>       | TNFAIP6 tumor necrosis factor, alpha-induced protein 6 [ Homo sapiens ]                                                                                                                                                                                                                                                 |
| <b>Official Symbol</b> | TNFAIP6                                                                                                                                                                                                                                                                                                                 |
| <b>Synonyms</b>        | TNFAIP6; tumor necrosis factor, alpha-induced protein 6; tumor necrosis factor-inducible gene 6 protein; TSG 6; TSG6; TNF alpha-induced protein 6; hyaluronate-binding protein; TNF-stimulated gene 6 protein; tumor necrosis factor alpha-inducible protein 6; tumor necrosis factor-stimulated gene-6 protein; TSG-6; |
