

## Recombinant Human TRPT1, GST-tagged

Cat. No. TRPT1-3438H    Lot. No. (See product label)

### SPECIFICATION

|                  |                                                                                                                                                                   |
|------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Product Overview | Recombinant Human TRPT1 protein, fused to GST-tag, was expressed in E.coli and purified by GSH-sepharose.                                                         |
| Species          | Human                                                                                                                                                             |
| Source           | E.coli                                                                                                                                                            |
| ProteinLength    | C-term-204aa                                                                                                                                                      |
| Storage          | The protein is stored in PBS buffer at -20°C. Avoid repeated freezing and thawing cycles.                                                                         |
| Storage Buffer   | 1M PBS (58mM Na <sub>2</sub> HPO <sub>4</sub> , 17mM NaH <sub>2</sub> PO <sub>4</sub> , 68mM NaCl, pH8. ) added with 100mM GSH and 1% Triton X-100, 15% glycerol. |

### GENE INFORMATION

|                 |                                                                                   |
|-----------------|-----------------------------------------------------------------------------------|
| Gene Name       | TRPT1 tRNA phosphotransferase 1 [ Homo sapiens ]                                  |
| Official Symbol | TRPT1                                                                             |
| Synonyms        | TRPT1; tRNA phosphotransferase 1; MGC11134; tRNA splicing 2 phosphotransferase 1; |
| Gene ID         | 353240                                                                            |
