

## Recombinant Human WDR16, GST-tagged

Cat. No. WDR16-3707H    Lot. No. (See product label)

### SPECIFICATION

|                  |                                                                                                                                                                   |
|------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Product Overview | Recombinant Human WDR16 protein, fused to GST-tag, was expressed in E.coli and purified by GSH-sepharose.                                                         |
| Species          | Human                                                                                                                                                             |
| Source           | E.coli                                                                                                                                                            |
| ProteinLength    | C-term-321aa                                                                                                                                                      |
| Storage          | The protein is stored in PBS buffer at -20°C. Avoid repeated freezing and thawing cycles.                                                                         |
| Storage Buffer   | 1M PBS (58mM Na <sub>2</sub> HPO <sub>4</sub> , 17mM NaH <sub>2</sub> PO <sub>4</sub> , 68mM NaCl, pH8. ) added with 100mM GSH and 1% Triton X-100, 15% glycerol. |

### GENE INFORMATION

|                 |                                                                                       |
|-----------------|---------------------------------------------------------------------------------------|
| Gene Name       | WDR16 WD repeat domain 16 [ Homo sapiens ]                                            |
| Official Symbol | WDR16                                                                                 |
| Synonyms        | WDR16; WD repeat domain 16; FLJ37528; WD40 repeat protein upregulated in HCC; WDRPUH; |
| Gene ID         | 93665                                                                                 |
