

## Recombinant Human XPO6, GST-tagged

Cat. No. XPO6-3754H    Lot. No. (See product label)

### SPECIFICATION

|                  |                                                                                                                                                                   |
|------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Product Overview | Recombinant Human XPO6 protein, fused to GST-tag, was expressed in E.coli and purified by GSH-sepharose.                                                          |
| Species          | Human                                                                                                                                                             |
| Source           | E.coli                                                                                                                                                            |
| ProteinLength    | C-term-350aa                                                                                                                                                      |
| Storage          | The protein is stored in PBS buffer at -20°C. Avoid repeated freezing and thawing cycles.                                                                         |
| Storage Buffer   | 1M PBS (58mM Na <sub>2</sub> HPO <sub>4</sub> , 17mM NaH <sub>2</sub> PO <sub>4</sub> , 68mM NaCl, pH8. ) added with 100mM GSH and 1% Triton X-100, 15% glycerol. |

### GENE INFORMATION

|                 |                                                                                                                                                    |
|-----------------|----------------------------------------------------------------------------------------------------------------------------------------------------|
| Gene Name       | XPO6 exportin 6 [ Homo sapiens ]                                                                                                                   |
| Official Symbol | XPO6                                                                                                                                               |
| Synonyms        | XPO6; exportin 6; RAN binding protein 20 , RANBP20; exportin-6; FLJ22519; KIAA0370; RAN binding protein 20; ran-binding protein 20; EXP6; RANBP20; |
| Gene ID         | 23214                                                                                                                                              |
