

Recombinant Human corticotropin releasing hormone binding protein, His-tagged

Cat. No. CRHBP-460H **Lot. No.** (See product label)

SPECIFICATION

Product Overview	CRHBP, 22-322aa, Human, His tag, E.coli
Species	Human
Source	E.coli
ProteinLength	22-322 a.a.
Description	Corticotropin-releasing hormone is a potent stimulator of synthesis and secretion of preopiomelanocortin-derived peptides. Although CRH concentrations in the human peripheral circulation are normally low, they increase throughout pregnancy and fall rapidly after parturition. Maternal plasma CRH probably originates from the placenta. Human plasma contains a CRH-binding protein which inactivates CRH and which may prevent inappropriate pituitary-adrenal stimulation in pregnancy. Recombinant human CRHBP protein, fused to His-tag at N-terminus, was expressed in E.coli.
