Recombinant Rat Scnn1b, His-tagged

Cat. No. Scnn1b-3415R **Lot. No.** (See product label)

SPECIFICATION

Product Overview	Amiloride-sensitive sodium channel subunit beta (Scnn1b)
Species	Rat
Source	E.Coli/Yeast
ProteinLength	638
Description	acts as an epithelial sodium ion channel; regulates salt and fluid transport in the kidney .
Form	This item requires custom production and lead time is between 5-9 weeks. We can custom produce according to your specifications.
Purity	>90%
Notes	Small volumes of Scnn1b recombinant protein may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice.
Storage	Store at -20 degree C. For extended storage, store at -20 or -80 degree C.
Storage Buffer	PBS pH 7.4, 50% glycerol

45-1 Ramsey Road, Shirley, NY 11967, USA

Warning	This product is for research use only. Not for use in diagnostic or therapeutic procedures.

GENE INFORMATION

Gene Name	Scnn1b sodium channel, nonvoltage-gated 1, beta [Rattus norvegicus]
Official Symbol	Scnn1b
Synonyms	SCNN1B; sodium channel, nonvoltage-gated 1, beta; amiloride-sensitive sodium channel subunit beta; SCNEB; beta-ENaC; beta-NaCH; epithelial Na(+) channel subunit beta; nonvoltage-gated sodium channel 1 subunit beta; sodium channel, nonvoltage-gated, type I, beta; RNENACB;
Gene ID	24767
mRNA Refseq	NM_012648
Protein Refseq	NP_036780
Pathway	Aldosterone-regulated sodium reabsorption, organism-specific biosystem; Aldosterone-regulated sodium reabsorption, conserved biosystem; Taste transduction, organism-specific biosystem; Taste transduction, conserved biosystem;
Function	WW domain binding; WW domain binding; WW domain binding; ion channel activity; ligand-gated sodium channel activity; ligand-gated sodium channel activity; ligand-gated sodium channel activity; protein binding; contributes_to sodium channel activity;
