

Recombinant Mouse Ang, His-tagged

Cat. No. Ang-3453M **Lot. No.** (See product label)

SPECIFICATION

Product Overview	Angiogenin (Ang)
Species	Mouse
Source	E.Coli/Yeast
ProteinLength	145
Description	This gene encodes a member of the pancreatic ribonuclease A superfamily and is a potent inducer of neovascularization. The encoded protein is a secreted multifunctional tRNA-specific ribonuclease that promotes angiogenesis in response to angiogenetic stimuli such as hypoxia, mediates stress-induced translational repression by cleaving cellular tRNAs, stimulates cell proliferation by mediating rRNA transcription in prostate cancer cells, and is involved in neurite pathfinding. This gene resides in a cluster of highly related genes. It shares dual promoters and 5' exons with the ribonuclease, RNase A family 4 gene. Two alternatively spliced variants, with different 5' exons but the same coding exon, have been identified. Multiple pseudogenes have been found for this gene.
Form	This item requires custom production and lead time is between 5-9 weeks. We can custom produce according to your specifications.
Purity	>90%
Notes	Small volumes of Ang recombinant protein may occasionally become entrapped in

the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container's cap. Certain products may require to ship with dry ice.

Storage Store at -20 degree C. For extended storage, store at -20 or -80 degree C.

Storage Buffer PBS pH 7.4, 50% glycerol

Warning This product is for research use only. Not for use in diagnostic or therapeutic procedures.

GENE INFORMATION

Gene Name [Ang angiogenin, ribonuclease, RNase A family, 5 \[Mus musculus \]](#)

Official Symbol Ang

Synonyms ANG; angiogenin, ribonuclease, RNase A family, 5; angiogenin; RNase 5; angiogenin-1; ribonuclease 5; angiogenin, ribonuclease A family, member 1; Ang1; Rnase5; Rnase5a; AI385586;

Gene ID [11727](#)

mRNA Refseq [NM_001161731](#)

Protein Refseq [NP_001155203](#)

Pathway Cell surface interactions at the vascular wall, organism-specific biosystem; Hemostasis, organism-specific biosystem; Tie2 Signaling, organism-specific biosystem;
