| <b>Product Overview</b> | Arginine/serine-rich coiled-coil protein 2 (RSRC2)                                                                                                                                                                                                                                                             |
| <b>Species</b>          | Bovine                                                                                                                                                                                                                                                                                                         |
| <b>Source</b>           | E.Coli/Yeast                                                                                                                                                                                                                                                                                                   |
| <b>ProteinLength</b>    | 435                                                                                                                                                                                                                                                                                                            |
| <b>Form</b>             | This item requires custom production and lead time is between 5-9 weeks. We can custom produce according to your specifications.                                                                                                                                                                               |
| <b>Purity</b>           | >90%                                                                                                                                                                                                                                                                                                           |
| <b>Notes</b>            | Small volumes of RSRC2 recombinant protein may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container's cap. Certain products may require to ship with dry ice. |
| <b>Storage</b>          | Store at -20 degree C. For extended storage, store at -20 or -80 degree C.                                                                                                                                                                                                                                     |
| <b>Storage Buffer</b>   | PBS pH 7.4, 50% glycerol                                                                                                                                                                                                                                                                                       |
| <b>Warning</b>          | This product is for research use only. Not for use in diagnostic or therapeutic procedures.                                                                                                                                                                                                                    |

## GENE INFORMATION

|                     |                                                         |
|---------------------|---------------------------------------------------------|
| Gene Name           | RSRC2 arginine/serine-rich coiled-coil 2 [ Bos taurus ] |
| Official Symbol     | RSRC2                                                   |
| Synonyms            | arginine/serine-rich coiled-coil protein 2              |
| Gene ID             | 532701                                                  |
| mRNA Refseq         | NM_001102146                                            |
| Protein Refseq      | NP_001095616                                            |
| UniProt ID          | A6QLS2                                                  |
| Chromosome Location | chromosome: 17                                          |
