

## Recombinant Rat GCSF protein, His-tagged

**Cat. No.** GCSF-3277R    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                            |
|-------------------------|------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Rat GCSF protein(Ile22~Leu198), fused with N-terminal His Tag, was expressed in HEK293.        |
| <b>Species</b>          | Rat                                                                                                        |
| <b>Source</b>           | HEK293                                                                                                     |
| <b>ProteinLength</b>    | Ile22~Leu198                                                                                               |
| <b>Form</b>             | PBS, pH7.4, containing 0.01% SKL, 1mM DTT, 5% Trehalose and Proclin300.                                    |
| <b>Molecular Mass</b>   | 25&26kDa                                                                                                   |
| <b>Endotoxin</b>        | <1.0EU per 1g (determined by the LAL method)                                                               |
| <b>Purity</b>           | > 90%                                                                                                      |
| <b>Storage</b>          | Avoid repeated freeze/thaw cycles. Store at 2-8°C for one month. Aliquot and store at -80°C for 12 months. |
| <b>Reconstitution</b>   | Reconstitute in 10mM PBS (pH7.4) to a concentration of 0.1-1.0 mg/mL. Do not vortex.                       |
