

## Recombinant Rhesus monkey MMP14 protein, His-tagged

Cat. No. MMP14-3296R    Lot. No. (See product label)

### SPECIFICATION

|                         |                                                                                                                   |
|-------------------------|-------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Rhesus monkey MMP14 protein(Tyr112~Gly321), fused with N-terminal His Tag, was expressed in E.coli.   |
| <b>Species</b>          | Rhesus macaque                                                                                                    |
| <b>Source</b>           | E.coli                                                                                                            |
| <b>ProteinLength</b>    | Tyr112~Gly321                                                                                                     |
| <b>Form</b>             | 100mMNaHCO <sub>3</sub> , 500mMNaCl, pH8.3, containing 1mM EDTA, 1mM DTT, 0.01% SKL, 5% Trehalose and Proclin300. |
| <b>Molecular Mass</b>   | 27kDa                                                                                                             |
| <b>Endotoxin</b>        | <1.0EU per 1g (determined by the LAL method)                                                                      |
| <b>Purity</b>           | > 97%                                                                                                             |
| <b>Storage</b>          | Avoid repeated freeze/thaw cycles. Store at 2-8°C for one month. Aliquot and store at -80°C for 12 months.        |
| <b>Reconstitution</b>   | Reconstitute in ddH <sub>2</sub> O to a concentration of 0.1-1.0 mg/mL. Do not vortex.                            |
