

# Recombinant Human FBXO2 protein, His-SUMO-tagged

**Cat. No.** FBXO2-3338H    **Lot. No.** (See product label)

## SPECIFICATION

|                         |                                                                                                                              |
|-------------------------|------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Human FBXO2 protein(Met1~Pro296), fused with Two N-terminal Tags, His-tag and SUMO-tag, was expressed in E.coli. |
| <b>Species</b>          | Human                                                                                                                        |
| <b>Source</b>           | E.coli                                                                                                                       |
| <b>ProteinLength</b>    | Met1~Pro296                                                                                                                  |
| <b>Form</b>             | PBS, pH7.4, containing 0.01% SKL, 1mM DTT, 5% Trehalose and Proclin300.                                                      |
| <b>Molecular Mass</b>   | 30kDa                                                                                                                        |
| <b>Endotoxin</b>        | <1.0EU per 1g (determined by the LAL method)                                                                                 |
| <b>Purity</b>           | > 90%                                                                                                                        |
| <b>Storage</b>          | Avoid repeated freeze/thaw cycles. Store at 2-8°C for one month. Aliquot and store at -80°C for 12 months.                   |
| <b>Reconstitution</b>   | Reconstitute in 10mM PBS (pH7.4) to a concentration of 0.1-1.0 mg/mL. Do not vortex.                                         |
