

## Recombinant Human OTUD1 Protein (Q2-S481), His tagged

Cat. No. OTUD1-0388H    Lot. No. (See product label)

### SPECIFICATION

|                  |                                                                                                                                                                     |
|------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Product Overview | Recombinant Human 6His-TEV-GG-OTUD1(Q2-S481 end) Protein was expressed in E. coli.                                                                                  |
| Species          | Human                                                                                                                                                               |
| Source           | E.coli                                                                                                                                                              |
| ProteinLength    | Q2-S481                                                                                                                                                             |
| Description      | Deubiquitinating enzyme that specifically hydrolyzes 'Lys-63'-linked polyubiquitin to monoubiquitin.                                                                |
| Form             | Liquid                                                                                                                                                              |
| Endotoxin        | < 0.01 EU per µg of the protein                                                                                                                                     |
| Purity           | 80%                                                                                                                                                                 |
| Stability        | Samples are stable for up to twelve months from date of receipt at -20 to -80 centigrade.                                                                           |
| Storage          | Store it under sterile conditions at -20 to -80 centigrade. It is recommended that the protein be aliquoted for optimal storage. Avoid repeated freeze-thaw cycles. |
| Storage Buffer   | Supplied as sterile. 10 mM HEPES (pH 7.5), 150 mM NaCl, 5% glycerol.                                                                                                |
