Recombinant Human Di-Ubiquitin Protein (DUB-Resistant K63-Linked)

Cat. No. Di-Ubiquitin-36H **Lot. No.** (See product label)

SPECIFICATION

Product Overview	Recombinant Human Di-Ubiquitin Protein (DUB-Resistant K63-Linked) without tag was expressed in E. coli. The product contains a wild-type C-terminus on the proximal ubiquitin. This product is made-to-order.
Species	Human
Source	E.coli
Description	DUB-resistant K63-linked di-ubiquitin (Ub2) contains an amino acid substitution near the C-terminus of the distal ubiquitin that renders it resistant to deubiquitylases (DUBs). DUB-resistant ubiquitin chains are ideal reagents for structural or binding studies with deubiquitylases or other ubiquitin binding proteins. They can also be used as inhibitors or to determine the linkage-specificity of DUBs.
Molecular Mass	17,123.7 Da
Purity	≥ 90% by RP-HPLC
Applications	Structural or binding studies with deubiquitylases and other ubiquitin binding proteins. Inhibition or determination of linkage-specificity of DUBs
Storage	At -80 centigrade, avoid freeze/thaw cycles
Concentration	1 mg/mL

Tel: 1-631-559-9269 1-516-512-3133

45-1 Ramsey Road, Shirley, NY 11967, USA

Storage Buffer	20 mM Tris pH 7.5, 150 mM NaCl, 1 mM EDTA

GENE INFORMATION

Official Symbol	Di-Ubiquitin
Synonyms	Di-Ubiquitin; Ub2
