

Recombinant Human WT Ubiquitin Protein

Cat. No. Ubiquitin-65H **Lot. No.** (See product label)

SPECIFICATION

Product Overview	Recombinant Human WT Ubiquitin Protein without tag was expressed in E. coli
Species	Human
Source	E.coli
Description	Ubiquitin is a small polypeptide that can be conjugated via its C-terminus to amine groups of lysine residue on target proteins. This conjunction is referred to as monoubiquitylation. Additional ubiquitin moieties can be subsequently conjugated to this initial ubiquitin, utilizing any one (of seven) lysine residues on the surface of ubiquitin. The formation of these ubiquitin chains is referred to as polyubiquitylation. This is tag-free recombinant human ubiquitin WT, wild-type.
Molecular Mass	8,564.9 Da
Storage	At -80 centigrade, avoid freeze/thaw cycles
Storage Buffer	Phosphate Buffered Saline pH 7.4

GENE INFORMATION

Official Symbol	Ubiquitin
Synonyms	Ubiquitin
