

## Recombinant Human RGS14 (56-207)\_RGS domain Protein

**Cat. No.** RGS1427490H    **Lot. No.** (See product label)

### SPECIFICATION

#### Product Overview

|                       |                                                                                                                                                                                                                                           |
|-----------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Species</b>        | Human                                                                                                                                                                                                                                     |
| <b>Description</b>    | RGS14 (human) was expressed and purified from E. coli. The protein was expressed as a Nterminal double HIS-fusion protein and purified by a 2-step chromatographic procedure comprising affinity and size exclusion chromatography steps. |
| <b>Molecular Mass</b> | 22 kDa                                                                                                                                                                                                                                    |
| <b>Purity</b>         | > 90%                                                                                                                                                                                                                                     |
| <b>Storage</b>        | frozen; -80                                                                                                                                                                                                                               |
| <b>Storage Buffer</b> | 20 mM HEPES pH 8.0;150 mM NaCl;5% Glycerol;2 mM DTT                                                                                                                                                                                       |

### GENE INFORMATION

|                        |                                                                          |
|------------------------|--------------------------------------------------------------------------|
| <b>Gene Name</b>       | RGS14 (56-207)_RGS domain                                                |
| <b>Official Symbol</b> | RGS14                                                                    |
| <b>Synonyms</b>        | P160ROCK; ROCK-I; Rho associated coiled-coil containing protein kinase 1 |
| <b>Gene ID</b>         | 10636                                                                    |
