

## Active Recombinant Human CD274, HlgG1 Fc-tagged

**Cat. No.** CD274-020H    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                                                                                                                                                                                                                                                                            |
|-------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Human PDL1 Protein extracellular domain (NP_054862.1, 19-238aa), was expressed in CHO cell with N-terminal human IgG1 Fc tag.                                                                                                                                                                                                                  |

| <b>Source</b>           | CHO                                                                                                                                                                                                                                                                                                                                                        |
| <b>ProteinLength</b>    | 19-238 aa                                                                                                                                                                                                                                                                                                                                                  |
| <b>Description</b>      | CD274 (CD274 molecule) is a protein-coding gene. Diseases associated with CD274 include pulmonary venoocclusive disease, and htlv-1 associated myelopathy/tropical spastic paraparesis, and among its related super-pathways are Immune System and Phosphorylation of CD3 and TCR zeta chains. GO annotations related to this gene include protein binding |
| <b>Form</b>             | Lyophilized from 0.2µm-filtered solution in PBS.                                                                                                                                                                                                                                                                                                           |
| <b>Bio-activity</b>     | Measured by its ability to inhibit anti-CD3 antibody induced IL-2 secretion in human T lymphocytes.                                                                                                                                                                                                                                                        |
| <b>Molecular Mass</b>   | 54 KDa (monomer)                                                                                                                                                                                                                                                                                                                                           |
