

## Recombinant Human ADAP1 Protein (Ser45-Asp356), N-His-tagged

Cat. No. ADAP1-0166H    Lot. No. (See product label)

### SPECIFICATION

|                  |                                                                                                                                                                                         |
|------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Product Overview | Recombinant human ADAP1 (Ser45-Asp356) was fused with the N-His tag and was expressed in E. coli.                                                                                       |
| Species          | Human                                                                                                                                                                                   |
| Source           | E.coli                                                                                                                                                                                  |
| ProteinLength    | Ser45-Asp356                                                                                                                                                                            |
| Form             | Lyophilized powder/frozen liquid                                                                                                                                                        |
| Molecular Mass   | 38.71 kDa                                                                                                                                                                               |
| Purity           | >90% as determined by SDS-PAGE                                                                                                                                                          |
| Notes            | For research use only.                                                                                                                                                                  |
| Storage          | Use a manual defrost freezer and avoid repeated freeze thaw cycles. Store at 2 to 8 centigrade for one week. Store at -20 to -80 centigrade for twelve months from the date of receipt. |
| Storage Buffer   | 0.01M PBS, pH 7.4, 0.02% NLS                                                                                                                                                            |
| Reconstitution   | Reconstitute in sterile water for a stock solution.                                                                                                                                     |

**Shipping** They are shipped out with dry ice/blue ice unless customers require otherwise.

## GENE INFORMATION

**Gene Name** [ADAP1 ArfGAP with dual PH domains 1 \[ Homo sapiens \(human\) \]](#)

**Official Symbol** [ADAP1](#)

**Synonyms** ADAP1; ArfGAP with dual PH domains 1; CENTA1, centaurin, alpha 1; arf-GAP with dual PH domain-containing protein 1; GCS1L; cnt-a1; centaurin-alpha; centaurin-alpha-1; centaurin, alpha 1; putative MAPK-activating protein PM25; CENTA1; p42IP4;

**Gene ID** [11033](#)

**mRNA Refseq** [NM\\_006869](#)

**Protein Refseq** [NP\\_006860](#)

**MIM** [608114](#)

**UniProt ID** [O75689](#)
