

# Recombinant Human RNF168 Protein (Met1-Lys571), N-His-tagged

**Cat. No.** RNF168-0038H    **Lot. No.** (See product label)

## SPECIFICATION

|                         |                                                                                                                                                                                         |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant human RNF168 (Met1-Lys571) was fused with the N-His tag and was expressed in Baculovirus-Insect cells.                                                                      |
| <b>Species</b>          | Human                                                                                                                                                                                   |
| <b>Source</b>           | Insect Cells                                                                                                                                                                            |
| <b>ProteinLength</b>    | Met1-Lys571                                                                                                                                                                             |
| <b>Form</b>             | Lyophilized powder/frozen liquid                                                                                                                                                        |
| <b>Molecular Mass</b>   | 134.42 kDa                                                                                                                                                                              |
| <b>Purity</b>           | >90% as determined by SDS-PAGE                                                                                                                                                          |
| <b>Notes</b>            | For research use only.                                                                                                                                                                  |
| <b>Storage</b>          | Use a manual defrost freezer and avoid repeated freeze thaw cycles. Store at 2 to 8 centigrade for one week. Store at -20 to -80 centigrade for twelve months from the date of receipt. |
| <b>Storage Buffer</b>   | Supplied as solution form in 25 mM Hepes (pH 7.4), 500 mM NaCl, 0.1% Chaps, and 1% glycerol or lyophilized from 25 mM Hepes (pH 7.4), 500 mM NaCl, 0.1% Chaps, and 1% glycerol.         |

**Reconstitution** Reconstitute in sterile water for a stock solution.

**Shipping** They are shipped out with dry ice/blue ice unless customers require otherwise.

## GENE INFORMATION

**Gene Name** RNF168 ring finger protein 168, E3 ubiquitin protein ligase [ Homo sapiens (human) ]

**Official Symbol** RNF168

**Synonyms** RNF168; ring finger protein 168, E3 ubiquitin protein ligase; ring finger protein 168; E3 ubiquitin-protein ligase RNF168; FLJ35794; FLJ39749;

**Gene ID** 165918

**mRNA Refseq** NM\_152617

**Protein Refseq** NP\_689830

**MIM** 612688

**UniProt ID** Q8IYW5
