

# Recombinant Human CEP55 Protein (Gln189-Lys464), N-His tagged

**Cat. No.** CEP55-0995H    **Lot. No.** (See product label)

## SPECIFICATION

|                         |                                                                                                                                                                                               |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Human CEP55 (Gln189-Lys464) fused with the N-His tag was expressed in E. coli.                                                                                                    |
| <b>Species</b>          | Human                                                                                                                                                                                         |
| <b>Source</b>           | E.coli                                                                                                                                                                                        |
| <b>ProteinLength</b>    | Gln189-Lys464                                                                                                                                                                                 |
| <b>Form</b>             | Lyophilized powder/frozen liquid                                                                                                                                                              |
| <b>Molecular Mass</b>   | 34.83 kDa                                                                                                                                                                                     |
| <b>Purity</b>           | >90% as determined by SDS-PAGE.                                                                                                                                                               |
| <b>Notes</b>            | For research use only.                                                                                                                                                                        |
| <b>Storage</b>          | Use a manual defrost freezer and avoid repeated freeze thaw cycles.<br>Store at 2 to 8 centigrade for one week.<br>Store at -20 to -80 centigrade for twelve months from the date of receipt. |
| <b>Storage Buffer</b>   | 0.01M PBS, pH 7.4, 0.02% NLS                                                                                                                                                                  |
| <b>Reconstitution</b>   | Reconstitute in sterile water for a stock solution.                                                                                                                                           |

**Shipping** They are shipped out with dry ice/blue ice unless customers require otherwise.

## GENE INFORMATION

**Gene Name** CEP55 centrosomal protein 55kDa [ Homo sapiens (human) ]

**Official Symbol** CEP55

**Synonyms** CEP55; centrosomal protein 55kDa; C10orf3, chromosome 10 open reading frame 3; centrosomal protein of 55 kDa; cancer/testis antigen 111; CT111; FLJ10540; up-regulated in colon cancer 6; URCC6; C10orf3;

**Gene ID** 55165

**mRNA Refseq** NM\_001127182

**Protein Refseq** NP\_001120654

**MIM** 610000

**UniProt ID** Q53EZ4
