

## Recombinant IAV (A/Perth/16-RGcH5-3/2009 (H3N1)) HA Protein (Phe15-Asp536), C-His tagged

Cat. No. HA-1565I Lot. No. (See product label)

### SPECIFICATION

|                         |                                                                                                                                                                                               |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Influenza A virusHA (Phe15-Asp536) fused with the C-His Tag was expressed in Baculovirus-Insect cells.                                                                            |
| <b>Species</b>          | IAV                                                                                                                                                                                           |
| <b>Source</b>           | Insect Cells                                                                                                                                                                                  |
| <b>ProteinLength</b>    | Phe15-Asp536                                                                                                                                                                                  |
| <b>Form</b>             | Lyophilized powder/frozen liquid                                                                                                                                                              |
| <b>Molecular Mass</b>   | 67.97 kDa                                                                                                                                                                                     |
| <b>Purity</b>           | >90% as determined by SDS-PAGE.                                                                                                                                                               |
| <b>Notes</b>            | For research use only.                                                                                                                                                                        |
| <b>Storage</b>          | Use a manual defrost freezer and avoid repeated freeze thaw cycles.<br>Store at 2 to 8 centigrade for one week.<br>Store at -20 to -80 centigrade for twelve months from the date of receipt. |
| <b>Storage Buffer</b>   | Supplied as solution form in PBS, pH 7.5 or lyophilized from PBS, pH 7.5.                                                                                                                     |
| <b>Reconstitution</b>   | Reconstitute in sterile water for a stock solution.                                                                                                                                           |
