

# Recombinant Bactrocera dorsalis HR3 Protein (Full Length), N-His tagged

**Cat. No.** HR3-1619B    **Lot. No.** (See product label)

## SPECIFICATION

|                         |                                                                                                                                                                                               |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Bactrocera dorsalis HR3 (full-length) fused with the N-His tag was expressed in E. coli.                                                                                          |
| <b>Species</b>          | Bactrocera dorsalis                                                                                                                                                                           |
| <b>Source</b>           | E.coli                                                                                                                                                                                        |
| <b>ProteinLength</b>    | Full Length                                                                                                                                                                                   |
| <b>Form</b>             | Lyophilized powder/frozen liquid                                                                                                                                                              |
| <b>Molecular Mass</b>   | 56.89 kDa                                                                                                                                                                                     |
| <b>Purity</b>           | >90% as determined by SDS-PAGE.                                                                                                                                                               |
| <b>Notes</b>            | For research use only.                                                                                                                                                                        |
| <b>Storage</b>          | Use a manual defrost freezer and avoid repeated freeze thaw cycles.<br>Store at 2 to 8 centigrade for one week.<br>Store at -20 to -80 centigrade for twelve months from the date of receipt. |
| <b>Storage Buffer</b>   | Supplied as solution form in PBS, pH 7.5, 0.02% Sarcosyl or lyophilized from PBS, pH 7.5, 0.02% Sarcosyl.                                                                                     |

**Reconstitution** Reconstitute in sterile water for a stock solution.

**Shipping** They are shipped out with dry ice/blue ice unless customers require otherwise.

## GENE INFORMATION

**Gene Name** LOC105229709 probable nuclear hormone receptor HR3 [ *Bactrocera dorsalis* (oriental fruit fly) ]

**Official Symbol** HR3

**Synonyms** LOC105229709; probable nuclear hormone receptor HR3;

**Gene ID** 105229709

**mRNA Refseq** XM\_019991581

**Protein Refseq** XP\_019847140

**UniProt ID** A0A034W0Z9
