

# Human Fetal Kidney Membrane Lysate

**Cat. No.** Fetal Kidney-146H    **Lot. No.** (See product label)

## SPECIFICATION

### Product Overview

**Species** Human

**Source** Fetal Human Kidney

**Concentration** 2 mg/mL or better

**Tissue Type** Kidney

**Shipping** Dry ice

### Preparation method

Human kidney tissue membrane protein lysate was prepared by isolating the membrane protein from whole tissue homogenates using a proprietary technique. The human kidney tissue was frozen in liquid nitrogen immediately after excision and then stored at -70°C. The membrane protein is provided in a buffer including HEPES (pH 7.9), MgCl<sub>2</sub>, KCl, EDTA, Sucrose, Glycerol, sodium deoxycholate, NP-40, and a cocktail of protease inhibitors. For quality control purposes, the isolated kidney tissue membrane protein pattern on SDS-PAGE gel is shown to be consistent for each lot by visualization with coomassie blue staining. The isolated kidney tissue membrane protein is then Western analyzed by either GAPDH or  $\beta$ -actin antibody to confirm there is no signal or very weak signal.

**Diagnosis** Normal

|----------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Storage Buffer</b>      | HEPES pH 7.9, MgCl <sub>2</sub> , KCl, EDTA, Sucrose, Glycerol, Sodium deoxycholate, and NP-40.                                                                                                                                      |
| <b>Storage Instruction</b> | Store at 2-8°C for continuous use. For extended storage, freeze working aliquots at -70°C. Repeated freezing and thawing is not recommended. Under proper storage conditions the shelf life is half a year from the date of receipt. |
| <b>Applications</b>        | Fetal Kidney membrane protein lysate is for use in Western blotting, 10 µg to 20 µg per lane is recommended for mini gel.                                                                                                            |
