

Active Recombinant Mouse GP1BA Protein, C-His-tagged

Cat. No. GP1BA-21M **Lot. No.** (See product label)

SPECIFICATION

Product Overview	Recombinant Mouse GP1BA Protein, fused to His-tag at C-terminus, was expressed in CHO.
Species	Mouse
Source	CHO
ProteinLength	Gln17-Pro612
Description	Acts upstream of or within blood coagulation and cell morphogenesis. Colocalizes with anchored component of external side of plasma membrane. Is expressed in dorsal root ganglion; embryo; liver; and spinal cord. Used to study Bernard-Soulier syndrome. Human ortholog(s) of this gene implicated in Bernard-Soulier syndrome; Bernard-Soulier syndrome type A2; myocardial infarction; non-arteritic anterior ischemic optic neuropathy; and platelet-type bleeding disorder 3. Orthologous to human GP1BA (glycoprotein Ib platelet subunit alpha).
Form	Lyophilized from a 0.2 µm filtered solution in PBS.
Bio-activity	Measured by its binding ability in a functional ELISA. Recombinant Mouse CD42b/GPIb alpha is immobilized at 0.5 µg/mL (100 µL/well), the concentration of Recombinant Human vWF-A2 that produces 50% optimal binding response is approximately 0.1-0.5µg/mL in the presence of ristocetin.
Molecular Mass	Predicted Molecular Mass: 66 kDa

 45-1 Ramsey Road, Shirley, NY 11967, USA

	SDS-PAGE: 108-150 kDa, reducing conditions
N-terminal Sequence Analysis	No results obtained: Gln17 inferred from enzymatic pyroglutamate treatment revealing His18
Endotoxin	<0.10 EU per 1 µg of the protein by the LAL method.
Purity	>95%, by SDS-PAGE with silver staining
Storage	Use a manual defrost freezer and avoid repeated freeze-thaw cycles. 12 months from date of receipt, -20 to -70 centigrade as supplied. 1 month, 2 to 8 centigrade under sterile conditions after reconstitution. 3 months, -20 to -70 centigrade under sterile conditions after reconstitution.
Reconstitution	Reconstitute at 500 µg/mL in sterile PBS.
Shipping	The product is shipped at ambient temperature. Upon receipt, store it immediately at the temperature recommended below.

GENE INFORMATION

Gene Name	Gp1ba glycoprotein 1b, alpha polypeptide [Mus musculus (house mouse)]
Official Symbol	GP1BA
Synonyms	GPIba; GPIbalph; GP-Ib alpha
