

## Recombinant Human ICAM2 Protein (Lys25-Gln223), C-His tagged

**Cat. No.** ICAM2-2566H    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                                                                                                         |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant human ICAM2 (Lys25-Gln223) protein fused with the C-terminal His tag was expressed in Mammalian cells.                                                                      |
| <b>Species</b>          | Human                                                                                                                                                                                   |
| <b>Source</b>           | Mammalian Cells                                                                                                                                                                         |
| <b>ProteinLength</b>    | Lys25-Gln223                                                                                                                                                                            |
| <b>Molecular Mass</b>   | 21.89 kDa                                                                                                                                                                               |
| <b>Purity</b>           | >90 % as determined by SDS-PAGE.                                                                                                                                                        |
| <b>Notes</b>            | For research use only.                                                                                                                                                                  |
| <b>Storage</b>          | Use a manual defrost freezer and avoid repeated freeze thaw cycles. Store at 2 to 8 centigrade for one week. Store at -20 to -80 centigrade for twelve months from the date of receipt. |
| <b>Storage Buffer</b>   | Supplied as solution form in PBS or lyophilized from PBS.                                                                                                                               |
| <b>Reconstitution</b>   | Reconstitute in sterile water for a stock solution.                                                                                                                                     |
| <b>Shipping</b>         | In general, proteins are provided as lyophilized powder/frozen liquid. They are                                                                                                         |

 45-1 Ramsey Road, Shirley, NY 11967, USA

shipped out with dry ice/blue ice unless customers require otherwise.

## GENE INFORMATION

**Gene Name** ICAM2 intercellular adhesion molecule 2 [ Homo sapiens (human) ]

**Official Symbol** ICAM2

**Synonyms** ICAM2; intercellular adhesion molecule 2; CD102; ICAM-2;

**Gene ID** 3384

**mRNA Refseq** NM\_000873

**Protein Refseq** NP\_000864

**MIM** 146630

**UniProt ID** P13598

 Tel: 1-631-559-9269 1-516-512-3133
