

## Recombinant Human HABP2 Protein (Ser25-Phe560), N-His tagged

Cat. No. HABP2-2861H    Lot. No. (See product label)

### SPECIFICATION

|                  |                                                                                                                                                                                         |
|------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Product Overview | Recombinant human HABP2 (Ser25-Phe560) protein fused with the N-His tag was expressed in E. coli.                                                                                       |
| Species          | Human                                                                                                                                                                                   |
| Source           | E.coli                                                                                                                                                                                  |
| ProteinLength    | Ser25-Phe560                                                                                                                                                                            |
| Molecular Mass   | 62.37 kDa                                                                                                                                                                               |
| Purity           | >90 % as determined by SDS-PAGE.                                                                                                                                                        |
| Notes            | For research use only.                                                                                                                                                                  |
| Storage          | Use a manual defrost freezer and avoid repeated freeze thaw cycles. Store at 2 to 8 centigrade for one week. Store at -20 to -80 centigrade for twelve months from the date of receipt. |
| Storage Buffer   | 0.01M PBS, pH 7.4, 0.02 % NLS                                                                                                                                                           |
| Reconstitution   | Reconstitute in sterile water for a stock solution.                                                                                                                                     |
| Shipping         | In general, proteins are provided as lyophilized powder/frozen liquid. They are                                                                                                         |

 45-1 Ramsey Road, Shirley, NY 11967, USA

shipped out with dry ice/blue ice unless customers require otherwise.

## GENE INFORMATION

**Gene Name** HABP2 hyaluronan binding protein 2 [ Homo sapiens (human) ]

**Official Symbol** HABP2

**Synonyms**

HABP2; hyaluronan binding protein 2; hyaluronan-binding protein 2; factor VII activating protein; FSAP; HABP; HGFAL; PHBP; plasma hyaluronan binding protein; factor VII-activating protease; factor seven-activating protease; hyaluronic acid binding protein 2; plasma hyaluronan-binding protein; hepatocyte growth factor activator-like protein;

**Gene ID** 3026

**mRNA Refseq** NM\_001177660

**Protein Refseq** NP\_001171131

**MIM** 603924

**UniProt ID** Q14520

**SDS-PAGE**
