

# Recombinant Human GPLD1 Protein (Met496-Asp840), N-His tagged

**Cat. No.** GPLD1-2980H    **Lot. No.** (See product label)

## SPECIFICATION

|                         |                                                                                                                                                                                         |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant human GPLD1 (Met496-Asp840) protein fused with the N-His tag was expressed in E. coli.                                                                                      |
| <b>Species</b>          | Human                                                                                                                                                                                   |
| <b>Source</b>           | E.coli                                                                                                                                                                                  |
| <b>ProteinLength</b>    | Met496-Asp840                                                                                                                                                                           |
| <b>Molecular Mass</b>   | 39.17 kDa                                                                                                                                                                               |
| <b>Purity</b>           | >90 % as determined by SDS-PAGE.                                                                                                                                                        |
| <b>Notes</b>            | For research use only.                                                                                                                                                                  |
| <b>Storage</b>          | Use a manual defrost freezer and avoid repeated freeze thaw cycles. Store at 2 to 8 centigrade for one week. Store at -20 to -80 centigrade for twelve months from the date of receipt. |
| <b>Storage Buffer</b>   | 0.01M PBS, pH 7.4, 0.02 % NLS                                                                                                                                                           |
| <b>Reconstitution</b>   | Reconstitute in sterile water for a stock solution.                                                                                                                                     |
| <b>Shipping</b>         | In general, proteins are provided as lyophilized powder/frozen liquid. They are                                                                                                         |

shipped out with dry ice/blue ice unless customers require otherwise.

## GENE INFORMATION

**Gene Name** GPLD1 glycosylphosphatidylinositol specific phospholipase D1 [ Homo sapiens (human) ]

**Official Symbol** [GPLD1](#)

**Synonyms** GPLD1; glycosylphosphatidylinositol specific phospholipase D1; phosphatidylinositol-glycan-specific phospholipase D; GPI-PLD; PI-G PLD; GPI-specific phospholipase D; glycoprotein phospholipase D; phospholipase D, phosphatidylinositol-glycan-specific; glycosylphosphatidylinositol specific phospholipase D1, isoform 2; GPIPLD; PIGPLD; GPIPLDM; PIGPLD1; MGC22590;

**Gene ID** [2822](#)

**mRNA Refseq** [NM\\_001503](#)

**Protein Refseq** [NP\\_001494](#)

**MIM** [602515](#)

**UniProt ID** [P80108](#)
