

# Recombinant Human IFNA21 Protein (Asp25-Glu189), N-GST tagged

**Cat. No.** IFNA21-3100H    **Lot. No.** (See product label)

## SPECIFICATION

|                         |                                                                                                                                                                                         |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant human IFNA21 (Asp25-Glu189) protein fused with the N-GST tag was expressed in E. coli.                                                                                      |
| <b>Species</b>          | Human                                                                                                                                                                                   |
| <b>Source</b>           | E.coli                                                                                                                                                                                  |
| <b>ProteinLength</b>    | Asp25-Glu189                                                                                                                                                                            |
| <b>Molecular Mass</b>   | 46.05 kDa                                                                                                                                                                               |
| <b>Purity</b>           | >90 % as determined by SDS-PAGE.                                                                                                                                                        |
| <b>Notes</b>            | For research use only.                                                                                                                                                                  |
| <b>Storage</b>          | Use a manual defrost freezer and avoid repeated freeze thaw cycles. Store at 2 to 8 centigrade for one week. Store at -20 to -80 centigrade for twelve months from the date of receipt. |
| <b>Storage Buffer</b>   | 0.01M PBS, pH 7.4, 0.02 % NLS                                                                                                                                                           |
| <b>Reconstitution</b>   | Reconstitute in sterile water for a stock solution.                                                                                                                                     |
| <b>Shipping</b>         | In general, proteins are provided as lyophilized powder/frozen liquid. They are                                                                                                         |

shipped out with dry ice/blue ice unless customers require otherwise.

## GENE INFORMATION

**Gene Name** IFNA21 interferon, alpha 21 [ Homo sapiens (human) ]

**Official Symbol** IFNA21

**Synonyms** IFNA21; interferon, alpha 21; interferon alpha-21; IFN alpha1; leukocyte interferon protein; IFN-alpha-21; interferon alpha-F; LeIF F; leIF-F; IFN-alpha1; MGC126687; MGC126689;

**Gene ID** 3452

**mRNA Refseq** NM\_002175

**Protein Refseq** NP\_002166

**MIM** 147584

**UniProt ID** P01568
