

## Recombinant Human FGF10 Protein (Gln38-Ser208), C-His tagged

**Cat. No.** FGF10-3284H    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                                                                                                         |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant human FGF10 (Gln38~Ser208) protein fused with the C-terminal His tag was expressed in E. coli.                                                                              |
| <b>Species</b>          | Human                                                                                                                                                                                   |
| <b>Source</b>           | E.coli                                                                                                                                                                                  |
| <b>ProteinLength</b>    | Gln38-Ser208                                                                                                                                                                            |
| <b>Molecular Mass</b>   | 20.55 kDa                                                                                                                                                                               |
| <b>Purity</b>           | >90 % as determined by SDS-PAGE.                                                                                                                                                        |
| <b>Notes</b>            | For research use only.                                                                                                                                                                  |
| <b>Storage</b>          | Use a manual defrost freezer and avoid repeated freeze thaw cycles. Store at 2 to 8 centigrade for one week. Store at -20 to -80 centigrade for twelve months from the date of receipt. |
| <b>Storage Buffer</b>   | Supplied as solution form in 50 mM Tris-HCl, 150 mM NaCl, pH 7.5 or lyophilized from 50 mM Tris-HCl, 150 mM NaCl, pH 7.5.                                                               |
| <b>Reconstitution</b>   | Reconstitute in sterile water for a stock solution.                                                                                                                                     |

**Shipping**

In general, proteins are provided as lyophilized powder/frozen liquid. They are shipped out with dry ice/blue ice unless customers require otherwise.

**GENE INFORMATION**

**Gene Name** FGF10 fibroblast growth factor 10 [ Homo sapiens (human) ]

**Official Symbol** FGF10

**Synonyms** FGF10; fibroblast growth factor 10; FGF-10; keratinocyte growth factor 2; produced by fibroblasts of urinary bladder lamina propria;

**Gene ID** 2255

**mRNA Refseq** NM\_004465

**Protein Refseq** NP\_004456

**MIM** 602115

**UniProt ID** O15520

**SDS-PAGE**
