

CD138 protein-coupled magnetic MicroBeads

Cat. No. CD138-392M **Lot. No.** (See product label)

SPECIFICATION

Product Overview

Species Mouse

Capacity for up to 2×10^9 total cells

Background

In mice, CD138 (Syndecan-1) is expressed on pre-B and immature B lymphocytes in the bone marrow. It is lost when B cells emigrate into the periphery, is absent on circulating and peripheral B cells, and is re-expressed upon B cell differentiation into plasmablasts and plasma cells.

Application

Enrichment of cells expressing mouse CD138 antigen, e.g. plasma cells from bone marrow and spleen.
