

## Recombinant Human PIK3AP1 Protein (Leu489-Ser730), N-His tagged

**Cat. No.** PIK3AP1-4003H    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                                                                                                         |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant human PIK3AP1 (Leu489-Ser730) fused with the N-His tag was expressed in E. coli.                                                                                            |
| <b>Species</b>          | Human                                                                                                                                                                                   |
| <b>Source</b>           | E.coli                                                                                                                                                                                  |
| <b>ProteinLength</b>    | Leu489-Ser730                                                                                                                                                                           |
| <b>Form</b>             | Lyophilized powder/frozen liquid                                                                                                                                                        |
| <b>Molecular Mass</b>   | 30.03 kDa                                                                                                                                                                               |
| <b>Purity</b>           | >90% as determined by SDS-PAGE.                                                                                                                                                         |
| <b>Notes</b>            | For research use only.                                                                                                                                                                  |
| <b>Storage</b>          | Use a manual defrost freezer and avoid repeated freeze thaw cycles. Store at 2 to 8 centigrade for one week. Store at -20 to -80 centigrade for twelve months from the date of receipt. |
| <b>Storage Buffer</b>   | Lyophilized from a solution in PBS, pH 7.4, 0.02% NLS, 1mM EDTA, 4% Trehalose, 1% Mannitol.                                                                                             |

**Reconstitution** Reconstitute in sterile water for a stock solution.

**Shipping** They are shipped out with dry ice/blue ice unless customers require otherwise.

## GENE INFORMATION

**Gene Name** PIK3AP1 phosphoinositide-3-kinase adaptor protein 1 [ Homo sapiens (human) ]

**Official Symbol** PIK3AP1

**Synonyms** PIK3AP1; phosphoinositide-3-kinase adaptor protein 1; phosphoinositide 3-kinase adapter protein 1; BCAP; FLJ35564; B cell adaptor protein; B-cell adapter for phosphoinositide 3-kinase; B-cell phosphoinositide 3-kinase adapter protein 1; RP11-34E5.3;

**Gene ID** 118788

**mRNA Refseq** NM\_152309

**Protein Refseq** NP\_689522

**MIM** 607942

**UniProt ID** Q6ZUJ8
