

## Human Raji Membrane Lysate

**Cat. No.** Raji-408H    **Lot. No.** (See product label)

### SPECIFICATION

#### Product Overview

|                            |                                                                                                                                                                                                                                      |
|----------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Species</b>             | Human                                                                                                                                                                                                                                |
| <b>Source</b>              | Raji Cell Line                                                                                                                                                                                                                       |
| <b>Concentration</b>       | 2 mg/mL or better                                                                                                                                                                                                                    |
| <b>Cell line</b>           | Raji (Human Lymphoma; B Lymphoma)                                                                                                                                                                                                    |
| <b>Shipping</b>            | Dry ice                                                                                                                                                                                                                              |
| <b>Preparation method</b>  | Description not available.                                                                                                                                                                                                           |
| <b>Diagnosis</b>           | Tumor                                                                                                                                                                                                                                |
| <b>Storage Buffer</b>      | HEPES pH 7.9, MgCl <sub>2</sub> , KCl, EDTA, Sucrose, Glycerol, Sodium deoxycholate, and NP-40.                                                                                                                                      |
| <b>Storage Instruction</b> | Store at 2-8°C for continuous use. For extended storage, freeze working aliquots at -70°C. Repeated freezing and thawing is not recommended. Under proper storage conditions the shelf life is half a year from the date of receipt. |
| <b>Applications</b>        | Raji (Lymphoma; B Lymphoma) cell membrane protein lysate is for use in Western blotting, 10 µg to 20 µg per lane is recommended for mini gel.                                                                                        |
