

## Recombinant Human PEBP1 Protein (Met1-Lys187), C-His tagged

**Cat. No.** PEBP1-4784H    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                                                                                                         |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant human PEBP1 (Met1-Lys187) fused with the C-terminal His tag was expressed in Mammalian cells.                                                                               |
| <b>Species</b>          | Human                                                                                                                                                                                   |
| <b>Source</b>           | Mammalian Cells                                                                                                                                                                         |
| <b>ProteinLength</b>    | Met1-Lys187                                                                                                                                                                             |
| <b>Form</b>             | Lyophilized powder                                                                                                                                                                      |
| <b>Molecular Mass</b>   | 21.98 kDa                                                                                                                                                                               |
| <b>Purity</b>           | >90% as determined by SDS-PAGE.                                                                                                                                                         |
| <b>Notes</b>            | For research use only.                                                                                                                                                                  |
| <b>Storage</b>          | Use a manual defrost freezer and avoid repeated freeze thaw cycles. Store at 2 to 8 centigrade for one week. Store at -20 to -80 centigrade for twelve months from the date of receipt. |
| <b>Storage Buffer</b>   | Supplied as solution form in PBS, pH 7.5 or lyophilized from PBS, pH 7.5.                                                                                                               |
| <b>Shipping</b>         | They are shipped out with blue ice unless customers require otherwise.                                                                                                                  |

## GENE INFORMATION

**Gene Name** PEBP1 phosphatidylethanolamine binding protein 1 [ Homo sapiens (human) ]

**Official Symbol** PEBP1

**Synonyms** PEBP1; phosphatidylethanolamine binding protein 1; PBP, prostatic binding protein; phosphatidylethanolamine-binding protein 1; HCNP; hippocampal cholinergic neurostimulating peptide; PEBP; Raf kinase inhibitory protein; RKIP; neuropeptide h3; prostatic binding protein; prostatic-binding protein; raf kinase inhibitor protein; PBP; HCNPpp; PEBP-1;

**Gene ID** 5037

**mRNA Refseq** NM\_002567

**Protein Refseq** NP\_002558

**MIM** 604591

**UniProt ID** P30086
