

## Recombinant Human OSMR Protein (Glu28-Glu342), N-His tagged

Cat. No. OSMR-5291H    Lot. No. (See product label)

### SPECIFICATION

|                  |                                                                                                                                                                                         |
|------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Product Overview | Recombinant human OSMR (Glu28-Glu342) fused with the N-His tag was expressed in E. coli.                                                                                                |
| Species          | Human                                                                                                                                                                                   |
| Source           | E.coli                                                                                                                                                                                  |
| ProteinLength    | Glu28-Glu342                                                                                                                                                                            |
| Form             | Lyophilized powder/frozen liquid                                                                                                                                                        |
| Molecular Mass   | 38.86 kDa                                                                                                                                                                               |
| Purity           | >90% as determined by SDS-PAGE.                                                                                                                                                         |
| Notes            | For research use only.                                                                                                                                                                  |
| Storage          | Use a manual defrost freezer and avoid repeated freeze thaw cycles. Store at 2 to 8 centigrade for one week. Store at -20 to -80 centigrade for twelve months from the date of receipt. |
| Storage Buffer   | 0.01M PBS, pH 7.4, 0.02% NLS                                                                                                                                                            |
| Reconstitution   | Reconstitute in sterile water for a stock solution.                                                                                                                                     |

 45-1 Ramsey Road, Shirley, NY 11967, USA

**Shipping** They are shipped out with dry ice/blue ice unless customers require otherwise.

## GENE INFORMATION

**Gene Name** OSMR oncostatin M receptor [ Homo sapiens (human) ]

**Official Symbol** OSMR

**Synonyms** OSMR; oncostatin M receptor; oncostatin-M-specific receptor subunit beta; OSMRB; IL-31RB; IL-31R-beta; IL-31R subunit beta; IL-31 receptor subunit beta; interleukin-31 receptor subunit beta; oncostatin-M specific receptor beta subunit; PLCA1; MGC75127; MGC150626; MGC150627;

**Gene ID** 9180

**mRNA Refseq** NM\_001168355

**Protein Refseq** NP\_001161827

**MIM** 601743

**UniProt ID** Q99650
