

## Recombinant Human RNASE11 Protein (Ala18-Leu199), N-His tagged

**Cat. No.** RNASE11-5616H    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                                                                                                         |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant human RNASE11 (Ala18-Leu199) fused with the N-His tag was expressed in E. coli.                                                                                             |
| <b>Species</b>          | Human                                                                                                                                                                                   |
| <b>Source</b>           | E.coli                                                                                                                                                                                  |
| <b>ProteinLength</b>    | Ala18-Leu199                                                                                                                                                                            |
| <b>Form</b>             | Lyophilized powder/frozen liquid                                                                                                                                                        |
| <b>Molecular Mass</b>   | 22.90 kDa                                                                                                                                                                               |
| <b>Purity</b>           | > 90 % as determined by SDS-PAGE                                                                                                                                                        |
| <b>Notes</b>            | For research use only.                                                                                                                                                                  |
| <b>Storage</b>          | Use a manual defrost freezer and avoid repeated freeze thaw cycles. Store at 2 to 8 centigrade for one week. Store at -20 to -80 centigrade for twelve months from the date of receipt. |
| <b>Storage Buffer</b>   | 0.01M PBS, pH 7.4, 0.02 % NLS                                                                                                                                                           |
| <b>Reconstitution</b>   | Reconstitute in sterile water for a stock solution.                                                                                                                                     |

**Shipping** They are shipped out with dry ice/blue ice unless customers require otherwise.

## GENE INFORMATION

**Gene Name** RNASE11 ribonuclease, RNase A family, 11 (non-active) [ Homo sapiens (human) ]

**Official Symbol** RNASE11

**Synonyms** RNASE11; ribonuclease, RNase A family, 11 (non-active); C14orf6, chromosome 14 open reading frame 6; probable ribonuclease 11; RNase 11; ribonuclease 11; C14orf6;

**Gene ID** 122651

**mRNA Refseq** NM\_145250

**Protein Refseq** NP\_660293

**UniProt ID** Q8TAA1
